

PRESS RELEASE

Wemhöner is again one of 450 world market leaders from Germany

For the second time in succession, Wemhöner Surface Technologies has been confirmed as one of 450 companies from Germany as world market leader. In the segment of machinery and plant engineering "Upgrading of wood-based materials: Short-cycle press lines for melamine direct lamination and 3D Variopress lines".

The search for German world market leaders is carried out via an index developed by the University of St. Gallen in cooperation with the Academy of German World Market Leaders. The index checks and evaluates companies and follows an objective and transparent selection process. It is guaranteed that all selection criteria and the determined values are disclosed.
