

Product Information Short Cycle Press Lines

Production of Laminate Flooring

Application : Upgrading of thin HDF primarily with melamine resin impregnated papers and décors in direct lamination process.

Products: Laminate flooring

TECHNICAL DATA	
Capacity	Up to 250 cycles/h
Spec. press pressure	Up to 1.000 N/cm ²
Length of heating platen	Up to 13,0 m
Width of heating platen	Up to 2,65 m
Thickness of carrier board	5 - 12 mm
Application	Double-sided
Operation mode	1 - 3 carrier boards
Lay-up program	Automatic assembly of films and raw boards
Time of caul plate change	< 10 min.
