

PRESS RELEASE

WORLD MARKET LEADER 2025 Wemhöner Surface Technologies

For the seventh time in a row, Wemhöner has been honored as one of 500 Champions from Germany. The designation Champion or World Market Leader stands for globally active and successful companies across all industries, most of them under family management. These are companies with leading technologies and outstanding quality in their products and services.

Survey: University of St. Gallen, Switzerland
The Academy of German World Market Leaders
WirtschaftWoche

Ranking: Champion, World market leader

Industry/product: Mechanical and plant engineering. Finishing of wood-based materials: Short-cycle press lines for direct melamine lamination and 3D Variopresses

The selection method

The list of world market leaders is compiled annually by the University of Sankt Gallen, CH. To be considered a champion, a company must be number one or two in at least one relevant market segment. Annual sales, at least 50 million euros, must be 50% generated abroad and on three continents. The company headquarters must be in Germany. The scientists only use official figures.

Read more in the magazine WirtschaftsWoche in an exclusive special edition from 06.11.2024 with the title "The 500 secret world market leaders 2025".
